TEAK is a durable hardwood timber that's been used for boat building and furniture making for centuries, thanks to its strength and longevity. Teak will survive many years outdoors with little or no structural deterioration thanks to its highly water-resistant quality and natural oils. We carefully select A Grade Teak.

BATYLINE MESH is designed specifically for the outdoors. It is a fully recyclable product comprised of woven polyester fibers and coated with PVC to create an extremely stretch and tear-resistant fabric. It is UV light and mildew resistant, ensuring it survives in NZ's harsh climate.
