TEAK is a durable hardwood timber that's been used for boat building and furniture making for centuries, thanks to its strength and longevity. Teak will survive many years outdoors with little or no structural deterioration thanks to its highly water-resistant quality and natural oils. We carefully select A Grade Teak.

MARINE ROPE TRICORD is comprised of nautical and synthetic fibres. This blend of unbreakable polyster and soft natural fibres, makes it aesthetically pleasing and resistant to frost, water, fungi and UV-rays. All of our Tricord furniture is hand woven.
